

# Solutions & Prospects of Recent Electric power infrastructure of telecoms development Strategy (SPRES)

## XIX International Scientific&Technical Conference

Saint-Petersburg, RUSSIA  
June 2018

Since 1999

Annual International Scientific&Technical Conference  
"Solutions & Prospects of Recent Electric power infrastructure of telecoms development Strategy"  
**SPRES Conference**  
June, Saint-Petersburg, Russia

spres.info

Batteries • Generators • Rectifiers • Monitoring • Protection • Etc  
All producers and vendors • All top power engineers of telecoms

**Dear Colleagues !**

The XVIII International Scientific&Technical Conference "Solutions & Prospects of Recent Electric power infrastructure of telecoms development Strategy" (SPRES-2018) annually held according under Russian Federal Telecom Agency event schedule with International Telecom Academy support is to proceed in **Saint Petersburg, June 2018**

Conference mission is to organize a discussion on new technical policy issues and telecom power infrastructure development strategies. New technologies, equipment and solutions are to be presented. The SPRES conference main topics are

1. **New regulations and rules overview**
2. **Power saving technologies. Equipment exploitation security issues**
3. **Interoperation with Power supply companies and official regulating institutions**
4. **Power equipment of telecom enterprises exploitation practice**
5. **New equipment and solutions for telecom facilities**
6. **Data centres engineering infrastructures**
7. **Overvoltage and pulse interference protection**
8. **Equipment manufacturing in land localisation**
9. **Panel discussion**

**To the attention of Equipment and Solution Providers !**

We traditionally print at least 500 copies of full text Book of Proceedings up to the beginning of the conference. The book is traditionally distributed among the participants, the rest of circulation we distribute through direct mail to telecom companies and during telecom exhibitions/seminars
